"An Eco-Ethical wedding celebrates
the love two people share between
each other and all humans, minimises
our impact on the earth, and gives
back to our greater community."

[Less stuff, more meaning]

**Ethical
Weddings:**

*celebrating
the love you share
between each other
and all humans*

intro

Welcome lovers and congratulations on your engagement. Getting married is a big deal, so is looking after the planet. But how do you find eco-friendly businesses to help celebrate your big day?

Well, we looked at how every detail of a wedding could be eco-friendly, then we invited local businesses who have sustainable practices, to join with us. Now we have an incredible local Eco Weddings Team that will make your special day both mindful and memorable. From 10 very special humans up to 25 of your family and/or besties, we have a selection of 3 packages from which you can choose.

Oranje Tractor Farm in Albany WA is the perfect venue for your Eco Wedding. We're passionate about making a difference, sustainability is on show here, everywhere.

Our buildings are made from recycled materials, furniture and décor is vintage, our farm is laden with permaculture gardens, we have 5kW of photovoltaic cells and we repurpose, upcycle and recycle constantly.
